

PERSONAL STATEMENT

I am a digital artist and architectural designer currently pursuing my Postgraduate Diploma at Architectural Association School of Architecture in London, where I was awarded a scholarship for academic excellence. Having graduated from the AA's Experimental Programme and worked at Foster + Partners as a Part 1 Architectural Assistant, I have developed a strong foundation in architectural design alongside an evolving practice in digital media and immersive storytelling. My work explores the intersection of architecture, virtual environments, and interactive art, with a focus on using emerging technologies such as XR and real-time rendering to create speculative and experiential spaces.

WORKING EXPERIENCE

Designer | *Co-designer of Professor Wang Qingchun's door design project in Tsinghua University, experienced a complete design process, including scheme drafting, design proposal, design modeling, etc.*
